

# PL 401 MICRO

This is the latest product development for the indoor platform lifts. For example, the lift has a belt drive that makes it possible to have four glass sides.

- Compact.
- Low sound level.
- All sides can be equipped with glass.
- Frequency control.
- UPS backup for operation under 20 minutes is standard.
- Easy to install.
- Advanced preassembly.
- Reasonable installation cost.
- Call with impulse drive.

# PL 401 MICRO
